To whom this may concern,

I am eager to apply for the position of junior code reviewer at HyperionDev. I believe that with my skills and work ethic I will be an ideal candidate for this role.

I am currently completing level 3 of the full stack web developer course and plan to complete the course by the end of April.

My skills include a proficiency in Javascript and React as well as a good understanding of Express.

In addition to my technical skills, I have good communication and collaboration skills, a keen eye for detail and I am comfortable giving and receiving feedback. I take great pride in my work and always strive to do my best. I work within a timely manner and work effectively while collaborating with others.

I am confident that my technical skills, commitment to delivering high quality work and my attention to detail will make me an ideal candidate for the role of Junior Code Reviewer.

Thank you for reaching out to offer me the opportunity to apply for this position, I look forward to hearing back from you.

Yours sincerely,
Ben Graham.
